L1 - Deck Boards

Decking over 240" is shown as one length and decking must be spliced - multiple lengths of decking may be estimated. The deck board lengths and/or quantities may need to be adjusted based on framing or the deck board splice pattern you prefer. Please review the deck board lengths and quantities prior to the start of your project. A divider board may be added to improve the look and eliminate splices. To add dividers, recall the design and add a divider on the Design>Decking tab in the program.

Menards Deck Building Checklist

Planning

1. Get a permit. Check restrictions, building codes or local zoning to make sure your design complies with all requirements.
2. Contact local utilities to ensure construction will not disturb any electrical, cable or plumbing.
3. If necessary, hire a professional to help with planning and construction.
4. Consider site conditions including soil type, grade, and runoff before finalizing your design.
5. For decks attached to a building the attachment is critical, the attachment may require additional hardware and/or framing material including additional material inside the building for proper attachment.
6. Material estimates provided can be changed to meet your needs.
7. Additional joist blocking and bracing may be required based on deck location, elevation, and deck board type.
8. Menards offers professional delivery of materials, delivery is extra based on the distance from your local Menards store to your building site.
9. Final deck design and material calculations should be performed by a registered professional engineer.

Construction

- Practice good safety habits, use PPE including eye protection & dust masks during construction
- The deck railing will provide both a finishing touch to your project and the required safety needed. Make sure to follow good building practice and all manufacturer's instructions.
- Use all the hardware and fasteners recommended.
- With treated material its recommended to seal and/or stain your deck as soon as the decking will absorb the sealant.

Enjoy!!!
