Design Name: Regular Green Wood Only katy yang

Design ID: 312359254874

Estimated Price: \$9,025.89

**Today's estimated price. Future pricing may go up or down. Tax, labor, and delivery not included.*

MENARDS®

Design & Buy™
DECK**How to recall and purchase your design at home:****OR**

1. On Menards.com, enter "Design & Buy" in the search bar
2. Select the Deck Designer
3. Recall your design by entering Design ID: 312359254874
4. Follow the on-screen purchasing instructions

How to purchase your design at the store:

1. Enter Design ID: 312359254874 at the Design-It Center Kiosk in the Building Materials Department
2. Follow the on-screen purchasing instructions

**Deck Side Color Legend**

	Open Side/No Railing		Railing
	Unattached Walls		Attached Walls

Illustration intended to show general deck size and shape. Some options may not be shown for picture clarity.

Layout dimension sheets are intended as a construction aid. Not all options selected are shown.

Final design should be performed by a registered professional engineer to ensure all applicable building codes and regulations are met.

This is an estimate. It is only for general price information. This is not an offer and there can be no legally binding contract between the parties based on this estimate. The prices stated herein are subject to change depending upon the market conditions. The prices stated on this estimate are not firm for any time period unless specifically written otherwise on this form. The availability of materials is subject to inventory conditions. MENARDS IS NOT RESPONSIBLE FOR ANY LOSS INCURRED BY THE CUSTOMER WHO RELIES ON PRICES SET FORTH HEREIN OR ON THE AVAILABILITY OF ANY MATERIALS STATED HEREIN. L1 - Deck Boards and Treads

Decking over 240" is shown as one length and decking must be spliced - multiple lengths of decking may be estimated. The deck board lengths and/or quantities may need to be adjusted based on framing or the deck board splice pattern you prefer. Please review the deck board lengths and quantities prior to the start of your project. A divider board may be added to improve the look and eliminate splices. To add dividers, recall the design and add a divider on the Design>Decking tab in the program.

Menards Deck Building Checklist

Planning

1. Get a permit. Check restrictions, building codes or local zoning to make sure your design complies with all requirements.
2. Contact local utilities to ensure construction will not disturb any electrical, cable or plumbing.
3. If necessary, hire a professional to help with planning and construction.
4. Consider site conditions including soil type, grade, and runoff before finalizing your design.
5. For decks attached to a building the attachment is critical, the attachment may require additional hardware and/or framing material including additional material inside the building for proper attachment.
6. Material estimates provided can be changed to meet your needs.
7. Additional joist blocking and bracing may be required based on deck location, elevation, and deck board type.
8. Menards offers professional delivery of materials, delivery is extra based on the distance from your local Menards store to your building site.
9. Final deck design and material calculations should be performed by a registered professional engineer.

Construction

- Practice good safety habits, use PPE including eye protection & dust masks during construction
- The deck railing will provide both a finishing touch to your project and the required safety needed. Make sure to follow good building practice and all manufacturer's instructions.
- Use all the hardware and fasteners recommended.
- With treated material its recommended to seal and/or stain your deck as soon as the decking will absorb the sealant.

Enjoy!!!

The type and quantity of fasteners used to install MiTek products is critical to connector performance. MiTek has a full range of structurally-rated fasteners for wood frame structures. Hot-dip galvanized, stainless steel, and Gold Coat corrosion resistant finishes are available for exterior applications.

MiTek Deck Hardware is available in Triple Zinc (TZ) and Gold Coat (GC).

TZ galvanizing provides a prefabrication coating of 1.85 (G-185) ounces of zinc per square foot of surface area (both sides) measured in accordance with ASTM A 653. Use with Hot-dip galvanized fasteners.

Gold Coat is a proprietary multi-layer protection system. It is comprised of an organic top coat barrier layer and a zinc layer placed over a steel substrate. Use with Gold Coat or Hot-dip galvanized fasteners.
